

GP PRODUCTS for RECYCLING

Compatibilizers

GRAFTABOND™ ECO-RM – for mixed colored scrap PE, PP, PA, EVON, FILLERS etc.

GRAFTABOND™ ECO-RG – for mixed polyolefin-polyester scrap PE, PP, PET, PBT, PC etc.

GRAFTABOND™ LL-MAH 00220 C – for blow molding

GRAFTAKIT™ ECO 00750 C – for mixed polyolefin scrap

Custom-made compatibilizers (based on scrap composition)

Melt Flow enhancer for PE

GRAFTALEN™ SA (Powder)

Is an additive for polymers, used for regulating rheological properties.

Chain extenders

GRAFTALEN™ 168 CE (Powder) – for polycondensation scrap PET, PBT, PC, PLA

GRAFTALEN™ EB 15050 CE (Granules) – for polycondensation scrap PET, PBT, PC, PLA

GRAFTABOND™ EB-GMA 15020 CE (Granules) - for polyesters and polyester based compounds

Melt Flow regulator for PP

GRAFTALEN™ MB PO-DCP 03/ PO-DCP 05 / PO-DCP 10– 3%, 5% & 10% peroxide concentration

GRAFTALEN™ MB PO-H05 (Granules) – peroxide FREE

GRAFTALEN™ MB PO-BIIB 05 / PO-BIIB 10– 5% & 10% peroxide concentration

GRAFTALEN™ MB PO-DTBP 05 / PO- DTBP 10 – 5% & 10% peroxide concentration

LOW dosage
NO odour
COST effective

*Designed to increase melt flow of polypropylene and polypropylene compounds (scrap/virgin).
Can be used to decrease the MFI of the PE compounds.*

**Please indicate initial MFI and target MFI*
