

*Polymer modification is a
KEY to innovative
composite materials
development.*

*Full custom-made product
modification available for
the best match with your
technical challenge.*

Graft Polymer products for the Hot Melts Market.

❖ Hot melts standard Recipe as follow: “Graft - Body – Wax - Tackifying resins “

We can offer the following products for the **GRAFT**:

- GRAFTABOND EV-MAH (150, 400)
- GRAFTABOND EB-MAH (150)
- GRAFTABOND POE-MAH (150)
- GRAFTABOND EB-VTMS (150)
- GRAFTABOND SEBS-MAH
- GRAFTABOND SIS-MAH

We can offer the following products for the **WAX**:

- PE/PP WAXES - g – MAH up to 7%.

❖ Graftamid EB-PA12 Adhesion enhancement, Thermal properties enhancement.
